TO: Jonathan Evans, City Manager

FROM: Elena Georgiev, Internal Auditor

DATE: August 30, 2021

SUBJECT: Audit Plan 2021-2022

Background:

Professional auditing standards require that the chief audit executive establish a risk-based plan to determine the priorities of the internal audit function, consistent with the organization's goals.

To develop the risk-based plan, the chief audit executive consults with the board and senior management and obtains an understanding of the organization's strategies, key business objectives, associated risks, and risk management processes.

During the year, the chief audit executive may adjust the plan in response to changes in the organization's business, risks, operations, programs, systems, and controls.

Methodology:

The first step in establishing a risk-based audit plan is to identify the auditable entities. An auditable entity could be a location, department, function, financial statement area, compliance requirement, or a multitude of other entities. Including such an entity in the audit universe is justified if the entity has some role in creating or preserving value for the organization.

Please see Attachment 1 for the City of Riviera Beach (City) list of auditable entities. The list was compiled by function.

The second step in establishing a risk-based audit plan is to identify the risk factors most likely to lead to risk consequences, define each factor and assign it a rating criteria. The risk factors used in the analysis include:

- Inherent Risk,
- Criticality of Service to Public Health/Safety,
- Recent Leadership Change,
- Recent IT Change, and
- Time Since Last Audit.

Then, each risk factor is applied to each individual auditable entity, resulting in a total risk score.

Finally, the score of each auditable entity is adjusted based on the current emerging risks and the information obtained through discussions with members of City Council and senior management, and survey of staff.

Audit Plan:

In the summer of 2019, the Riviera Beach 2030 concept was born and the City embarked on a new and exciting journey to break from the status quo and create a prosperous, resilient, and sustainable community.

Then, in the spring of 2020, COVID-19 struck and left many municipalities wondering about the future. However, this is not the time to take a step back, it is the time for decisive action that will propel the City toward making the Riviera Beach 2030 vision a reality. The proposed audits will help management build a stable foundation for the future.

Top 5 Riskiest Auditable Entities (2021 Survey)	Audit Plan*
1. HR - Compensation and Benefits	1. Audit of Culture
2. HR - Recruitment and Selection	2. Audit of Human Resources
3. HR - Training and Development	
4. HR - Performance Measurement and Succession Planning	
5. HR - Employee Relations	
	Additional Recommendations
	1. Audit of Grants
	2. Audit of P-Cards
	3. Audit of Real Estate
	4. Review of the Small Business Forgivable Loans Program
	5. Assessment of IT Cybersecurity (To Be Outsourced)

*This audit plan is a planning tool to help ensure the best use of audit resources. As such, it is subject to change throughout the year as risks and priorities change.
